

RS PRO

Simplifying sourcing, ensuring unsurpassed value and efficiency. The RS PRO seal of approval is your assurance of professional quality, a guarantee that products and components are rigorously tested, inspected and audited to exacting standards.

RS PRO is the smart choice for our customers.

FOOD & BEVERAGE

PNEUMATICS

RS PRO offers a wide range of pneumatic components made of stainless steel.

From hoses to quick exhaust valves, from couplings to blowguns.

Main applications

- Compressed air / Pneumatic automation
- Industrial water circuits
- Inert gases, steam, vacuums
- Fluids and heating systems

Advantages

- Withstand heavy-duty use
- Compatible with all fluids
- Resistant to surface rust and oxidisation

Main features

- Durable stainless steel body
- Ideal for high corrosion environments

HYDRAULICS

RS PRO offers a wide range of stainless-steel hydraulics components. From gauges to ball valves, RS PRO has everything to manage food industry needs.

Main applications

- Water, hot water, chemicals
- Industrial water circuits
- Fluids and heating systems

Advantages

- Withstand heavy-duty use
- Compatible with all fluids
- Resistant to surface rust and oxidisation

Main features

- Durable stainless steel body
- Ideal for high corrosion environments
- Suitable for both hot and cold fluids

ENCLOSURES

RS PRO high-quality stainless-steel wall boxes and high IP rated accessories are the perfect choice for any needs in harsh environments.

Main applications

- Machine control panels
- Electrical panels
- Dust and moisture applications
- Sensitive equipment protection

Advantages

- Double lipped edge to ensure higher strength
- Ease of installation and use
- Removable door to easy access and operations

Main features

- High stainless steel grade available (316L)
- High IP protection (IP69K)
- Lockable

PPE (PERSONAL PROTECTIVE EQUIPMENT)

RS PRO offers a wide range of personal protective equipment. PPE become a key factor whenever people have to work in dangerous environments, or they need to prevent human contamination

Main applications

- Food processing
- Noisy environments
- Clean rooms

Advantages

- Efficient body protection (hand, head, overall)
- Human contamination prevention
- Working safely in any environments

Main features

- Face masks with various protection grade
- Full body coveralls
- Food safe disposable gloves

TEMPERATURE MEASUREMENT

Temperature measurement is critical within the industry. Small temperature variation could cause the failure of the entire production batch.

RS PRO offers a multiple choice to keep temperature under control from IR thermometer, to temperature sensitive labels.

Main applications

- Food processing
- Process control

Advantages

- IR thermometers detect temperature without contact preventing contamination
- Temperature Sensitive Labels are easy to use and cost effective

Main features

- Wide range of temperature measurement
- Different ways of measuring to suits every needs
