

# WATER & WASTE PRODUCT LINE CARD

The water and waste management industry is one of the most demanding 24/7 sectors. Large sites, remote operations, tough environments and millions of consumers relying on your teams every day. Our comprehensive and diverse range of industrial products can help you meet those challenges.

**RS**

## SENSING

Whether it's a level, pressure, proximity or temperature sensor we've got the widest range available, backed by next day delivery helping you avoid downtime.

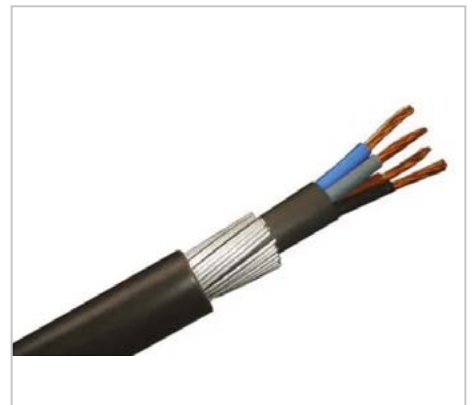

## TEST & MEASUREMENT

Test with confidence using brands you trust. Search voltage indicators and calipers, through to advanced thermal cameras and energy analysers - all with the option of traceable calibration

## CABLE & ACCESSORIES

A comprehensive range of electrical cables, accessories and cable management hardware from leading brands and great value options from RS PRO.

## MOTORS & MOTOR CONTROL

Electric motors are critical components within your process. Our extensive range is matched by a market leading offer of inverter drives & motor controllers.

## LIGHTING

Whether you need lighting for your buildings, work lights for outdoors or head torches for individuals; RS have the solutions for you.

## TOOLS & STORAGE

From screwdrivers and spanners to storage, shelving and trolleys we have a great selection from leading manufacturers plus our own RS PRO.

## MAINTENANCE CONSUMABLES

Whether you're cleaning, greasing, lubricating or fixing; we stock all the consumable products you need to keep your business going.

## PPE & WORKWEAR

Workers must be provided with compliant PPE that is fit for purpose. Take a look at our offer which includes workwear from the brands you know and trust.

## FALL PROTECTION

Whether you're climbing or dropping into holes, our range of fall protection equipment includes retractable lines and harnesses, as well as rope, lanyards and carabiners.
